Rt. Hon. Secretary General’s Message

ON

THE ROLL OUT OF VILLAGE BASED CAMPAIGNS FOR NATIONAL RESISTANCE MOVEMENT 2020/2021

NOVEMBER 2020
Dear leaders, members, supporters, well-wishers and the National Resistance Movement family,

It is my pleasure to formally roll out the much awaited National Resistance Movement’s village based campaign task forces, whose main duty is to canvass votes for all the flag bearers in the Presidential, Parliamentary and Local Governments elections and ultimately, secure overwhelming victory for the National Resistance Movement in the 2020/2021 national elections.

Ideological Superiority of National Resistance Movement.

His Excellency Yoweri Kaguta T. Museveni, the NRM Presidential Candidate in his message to the 48 NRM village Leaders per village dated 20th October, 2020, reminded us of the 4 principles of the NRM: Patriotism, Pan-Africanism, Socio-economic transformation and Democracy.

As guided by the NRM Presidential Candidate, each of the 4 ideological principles has a destiny securing reason, based on the survival of the human being as the underlining factor.

Patriotism espouses unity and love for the country as a critical factor for survival of Uganda, and Ugandans and the neighbours.

“Patriotism and Pan-Africanism ensure strategic security and the integration of the markets that will absorb our products as we expand production from the 4 Wealth and Jobs Creation Sectors of: Commercial Agriculture, Factories, Services and ICT.”

H. E. Gen. Yoweri Kaguta T. Museveni
NRM CHAIRMAN AND NRM FLAG BEARER 2021
Pan-Africanism guarantees strategic security and a bigger and wider market for the survival of the African peoples amidst competing global challenges; Socio-economic transformation emphasizes the complete changing in the livelihood of a human being; from backwardness to modernity; from the traditional way of subjugating the environment, to modern ways of livelihood, by most importantly through food security and income; and Democracy, defines the right of the individual human being in determining their survival destiny by freely choosing who should lead them.

The NRM leaders at all levels must identify with, and explain these principles to the communities so that the mission and vision of the NRM is better understood.

Once the communities appreciate the NRM ideological principles as being pro-people oriented and meant to secure their future by liberating them from subsistence production to production for the market, they will vote for the National Resistance Movement.

**COVID-19 Pandemic and 2021 Election Campaigns.**

The advent of the COVID-19 pandemic ushered in an era of “the new normal”, when on Saturday, 28th March, 2020, His Excellency the President of the Republic of Uganda, announced the initial “lock down” measures meant to combat the global pandemic. This is an attack to the human wellbeing.

As the country entered the 2020/2021 electoral cycle, a legal framework was eventually put in place to control the infection and transmission of COVID-19 pandemic in Uganda through the following measures; namely:

1. The Minister of Health gazetted the Public Health Regulations; which basically restricted any public gatherings whose numbers exceeded 70 persons. (this restriction was later relaxed to a maximum of 200 persons) and;

2. On the 9th July, 2020, the 10th Parliament approved the Political Parties and Organizations Regulations, which among other provisions, enabled political parties hold their respective national conferences “scientifically” so as to be able to elect their executive committees and Presidential flag bearers respectively.
It is against these two pieces of regulations that the National Electoral Commission issued strict electoral guidelines for the conduct of campaigns, the main feature being the prohibition of political rallies and processions.

As the ruling political organization; the National Resistance Movement is the custodian of the law and has to lead by example, by not holding the massive political rallies, processions and fanfare that our millions of supporters are used to.

Secondly, His Excellency the President when taking oath of President at the beginning of this presidential term on 12th May, 2016, took Oath to protect the lives and properties of Ugandans, and the country must appreciate that the fight against COVID-19 is about life and death.

The National Resistance Movement will protect the lives of Ugandans by strictly following the guidelines as issued by the National Electoral Commission and the Standard Operating Procedures, including the health restrictions issued from time to time, by the Minister of Health.

It is against this back ground that the NRM Presidential Candidate opted to hold campaigns “scientifically” by holding strategic meetings with selective leaders and thereafter holding press conferences and radio talk shows that are view and listen to by the country.

Campaign Manifesto Theme.

The 2021/2026 NRM Election Manifesto is premised on the reality that Uganda under the NRM leadership, is now ready for socio-economic take-off.

As you are aware, the Theme of the 2021/2026 NRM Election Manifesto is “Securing Your Future”. This noble theme envisages and promises a more fundamental and drastic socio-economic transformation and progress that will propel Uganda to modernity.

The Manifesto, which is science driven, is sub-divided into the following 5 sub-themes; namely:

1. Creating Jobs and Wealth;
2. Delivering (quality) Education and Health;
3. Ensuring Justice and Equity;
4. Protecting Life and Property; and
5. Achieving Economic and Political Integration.

Campaign Structure.

The campaigns for the National Resistance Movement flag bearers for the Presidential, Parliamentary and Local Governments elections has been designed strategically to be village based, where emphasis will be placed on the “Kakuyege” mode of mobilization i.e. village to village; door to door; house to house and person to person.

This will be done in the village households, places of work like factories, arcades, markets, boda boda stages, taxi and bus parks, saloons, rolex makers, the services institutions e.g. banks, insurances, and telecommunication companies, etc. Other target working places of interest are the education institutions such as primary, secondary schools, and tertiary institutions including colleges and universities, etc.
As mentioned above, the option of having the usual mode of electioneering and campaigns that involved massive political rallies, processions and fanfare is not possible during this election cycle, mainly due to the devastating dangers posed by COVID-19 pandemic.

The party and all its leaders must “walk the talk” and take a leaf from His Excellency, Yoweri Kaguta Museveni, the National Chairperson and Presidential Flag Bearer of the National Resistance Movement in conducting “scientific” campaigns in strict conformity with the electoral guidelines.

The National Resistance Movement campaign structure is thus tailored to address the threats generated by the COVID-19 pandemic, by strictly observing all the relevant guidelines and regulations, while at the same time taking full advantage of the elaborate mass party structures countrywide, to ensure overwhelming victory for the National Resistance Movement.

**Village Task Force.**

As guided by His Excellency Yoweri Kaguta T. Museveni, the National Chairperson of the National Resistance Movement, the pivotal movers for these village based campaigns are the 48 National Resistance Movement leaders in each of the 70,626 villages countrywide, whose responsibility during the entire period of the campaigns will be to aggressively mobilise and canvass for votes for the National Resistance Movement flag bearers in each household, workplace and educational institutions. The village /branch task force will be headed by the NRM branch/village chairperson; whose docket will include presiding over strategic planning/mobilization meetings and providing the necessary linkage between the branch members, the population and the higher levels of the National Resistance Movement hierarchy. Each village/branch team should keep a record of the National Resistance Movement supporters.

Each team member should be allocated either a number households or a specific number of individual voters to be wooed into supporting and ultimately, voting for the National Resistance Movement Flag Bearers.

The success of the village to village, door to door; house to house and person to person strategy will depend largely on the mobility, flexibility and charisma of the branch chairperson and his/her team. Each village /branch task force countrywide is encouraged to recruit and co-opt some influential members from their villages to serve as NRM volunteers to boost their mobilization process.

The 48 members that will constitute the Village/Branch Task Force will be derived from leaders in the following NRM structures, namely:

a) Village/Branch Executive Committee (mainstream)
b) Village/Branch Executive Committee for Persons with Disabilities.
c) Village/Branch Executive of the Women’s League
d) Village/Branch Executive of the Women’s Council
e) Village/Branch Executive of the Elders’ League
f) Village/Branch Executive of the Elders’ Council
g) Village/Branch Executive of the Veterans & Historicals League.
h) Village/Branch Executive of the Youth League
i) Village/Branch Executive of the Youth Council
j) Village/Branch Presidential Vote Protectors.
The National Resistance Movement Presidential Candidate has entrusted the leaders of these structures at the village/branch levels with responsibility to ensure effective mobilization at the grassroots level, hence the village based mobilization concept.

**Parish Task Force.**

There will be a National Resistance Movement Parish Task Force, constituted from the party leadership in each of the 10,595 parishes countrywide and headed by the Parish Chairperson of the National Resistance Movement, who will provide leadership at that level.

Each Parish Task Force shall be composed of the five (5) leaders of the NRM Parish Executive Committees; whose main role will be to coordinate campaign efforts at the parish level, and to provide strategic linkage between the village task forces within each parish and the Task Forces at the Sub-County level.

Each Parish Task Force will target specific households, individuals and institutions recommended to it by the village campaign structures, as requiring special mobilization attention and focus.

**Sub County Task Force.**

In each of the 2,189 Sub Counties countrywide, there shall be constituted a Sub County campaign structure, composed of the 5 members of the NRM Sub County Executive Committee, under the leadership of the NRM Chairperson.

In addition to canvassing for votes for the National Resistance Movement flag bearers, the Sub County Task Force will coordinate strategy and campaign programmes at the sub County level, and provide the necessary linkage between the Parish Task Force and the District Task Force.

The Campaign structure will also target specific households, individuals and institutions recommended to it by the Parish Campaign structures as requiring special mobilization attention and focus.
District Task Force.

The National Resistance Movement District Task Force shall be constituted in each of the 146 districts countrywide, to be presided by the District Chairperson of the National Resistance Movement.

The following categories of NRM leaders will comprise the District Task Force, namely:

a) District Executive Committee (mainstream)
b) District Chairpersons of NRM Leagues i.e. Youth, Women, PWDs, Elders, Entrepreneurs, Veterans & Historicals, Workers.
c) Flag Bearers for Members of Parliament within the District, directly elected constituency Members of Parliament and the District Woman Representatives; and
d) Flag Bearer for District Local Government Chairperson.

The District Task Force will coordinate the campaign effort at the district level and provide the vital link between the lower level (i.e. the Village, Parish, Sub County and Constituency) campaign Task Forces and the National Secretariat. Just like in all the other level task forces, the National Resistance Movement leaders within the party structures at the district level, will constitute the formal District Campaign Structure.

It is strongly recommended that given the size of most districts, in respect to the several institutions of education, work places and a large private sector base, each District Campaign Structure will be have the mandate of co-opting such additional number of cadres as will be necessary to ensure effective mobilization.

However, caution must be exercised always so as to ensure that the volunteers to be co-opted must be agreed on by the NRM District Executive Committee in consultation with the NRM Flag Bearers for Members of Parliament and District Chairperson.

The District Task Force must file mobilization progress reports with the NRM Secretariat on a weekly basis; jointly endorsed by the following three members of the Task Force, namely:

a) The District NRM Chairperson
b) The Administrative Secretary and
c) One representative of the NRM Flag Bearers in the District.
The National NRM Task Force.

His Excellency Yoweri Kaguta T. Museveni, the NRM National Chairperson and Presidential Candidate on Monday, 16th November, 2020; appointed a 13 person NRM Strategy and Campaign Team (SCT), also known as the NRM National Task Force, which is headed by the Rt.Hon. Al Haji Moses Kigongo, the NRM 1st National Vice Chairperson.

The National NRM Task Force is charged with responsibility of providing the overall Strategic Leadership and Orientation to the entire National Resistance Movement campaign machinery and to the different NRM mobilization teams. Other members of the National Task Force are the following, namely:

1. Rt. Hon. Dr. Ruhakana Rugunda
2. Rt. Hon. Kasule Lumumba Justine
3. Hon. Namayanja Rose Nsereko
4. Hon. Todwong Richard
5. Hon. Magyezi Raphael
6. Hon. Anite Evelyn
7. Hon. Kafuzi Jackson
8. Hon. Gyaviira Serwanga
9. Ms. Babalanda Babirye Milly
10. Ms. Seku Hellen
11. Mr. Eyeru Jacob

The National NRM Task Force has drawn its Terms of Reference (ToRs) to facilitate its role during the campaign not only for the NRM Presidential Candidate, but for all NRM Candidates in the Parliamentary and Local Governments elections.

The specific Terms of Reference are as follows, namely:

a) To provide overall Strategic Leadership and orientation to the entire National Resistance Movement campaign machinery and teams.

b) To provide strategic guidance to the National Resistance Movement Secretariat when called upon, on the general administrative, logistical and coordination aspects of the campaign.

c) To evaluate and monitor the effectiveness of the village-based mobilization with the view to prescribing specific precision interventions required of the National Secretariat, including reinforcing footwork mobilization.

d) To Task the entire campaign effort, through the NRM Secretariat; the district, sub county, parish and village structures of the NRM, by passing appropriate messages to the structures as may be necessary to make the NRM policies – past, present and future – are well understood by the NRM fraternity and the voters.

e) To provide strategic guidance where necessary, to the National Secretariat on deployment of campaign teams including Zonal coordinators, volunteer cadres, etc.

f) To Perform such other strategic functions as may from time to time be required or requested of it by either the National Chairperson or the National Secretariat; and
g) To initiate such other additional strategic functions for the better monitoring and coordinating of the national campaign mobilization.

**Role of the Central Executive Committee.**

The Central Executive Committee of the National Resistance Movement, which is the highest policy making organ of the party, will provide general oversight and advisory role to the National Secretariat in respect to the management of the NRM campaign structures and the overall campaign strategy for the NRM Flag Bearers in the Presidential, Parliamentary and Local Governments elections.

The Central Executive Committee shall thus be engaged in the following aspects of mobilization, name:

a) Overall oversight of mobilization efforts towards the 2021 Presidential, Parliamentary and Local Governments elections.

b) Providing advice to the National Secretariat in respect to the management of campaign structures countrywide.

c) Supervising voter protection immediately prior to, during and immediately after polling exercise,

d) Participating in media talk shows explaining the NRM 2021/2026 election manifesto,

e) Overseeing the regional (zonal) planning meetings in preparation for the roll out of the grassroots mobilization programmes; in addition to performing supervisory monitoring of voter protection during elections.

f) Providing guidance to the National Resistance Movement Secretariat on the appropriate mobilization strategy to be adopted from time to time; generate mechanism that promote party cohesion, reconciliation and unity of purpose; participate in aggressive media campaigns focusing on the achievements of the National Resistance Movement and the strategies for securing the future through the NRM 2021/2026 election manifesto.

g) Providing guidance in respect to the periodic consultative planning and harmonization meetings involving selected National Resistance Movement opinion leaders, District NRM leaders as well as the flag bearers so as to harmonise their mobilization strategy, programmes and activities.

The 1st National Vice Chairperson of the National Resistance Movement will also spearhead this intervention by the Central Executive Committee, assisted by those Regional Vice Chairpersons and members of the Central Executive Committee who are not running for political office during the current elections circle.

**The National Resistance Movement Secretariat.**

The National Resistance Movement Secretariat will undertake the central coordination roles during the entire campaign period; with the main mandate including originating logistical facilitation of the campaign exercise through the different levels of the Task Forces.
The Secretariat will coordinate and ensure that the relevant campaign messages of the National Resistance Movement, including the NRM 2021/2016 election manifesto is appropriately packaged and that these messages reach every nook and corner of the country.

The Secretariat will also provide other supportive essential administrative functions and services for the entire campaign effort, including linkage to all levels of the National Resistance Movement Campaign Task Forces.

The National Resistance Movement Secretariat Call Centre will operate 24/7 during this campaign period, to ease communication and coordination of activities with the grassroots structures and to facilitate feedback responses to matters raised from the grassroots.

The following two toll free lines have been set up specifically to facilitate this process: **0800277007** and **0800337337**

Additionally, a general land line – **0312183500** has also been installed in fill the hitherto existing communication gap between the Centre and the grassroots.

The National Resistance Movement Secretariat Call Centre is equipped with a system tele-prompter, which is electronically programmed to guide callers on how to access assistance in all languages of preference by each caller.

The most important task for the NRM Secretariat during this campaign mobilization is to reawaken all the National Resistance Movement structures at all levels starting from the village/branch, and through to the Parish, Sub County and District Task Forces.

The size of the NRM Task Force is commensurate with the National Resistance Movement being a Mass Political organization. With a minimum 48 members constituting each village task force countrywide; 5 members at each parish task force level; 5 members at each sub county level and 12 members at each district level, the minimum overall membership of the NRM task forces countrywide is as below:

<table>
<thead>
<tr>
<th>Task Force</th>
<th>Members</th>
</tr>
</thead>
<tbody>
<tr>
<td>Village/Branch Task Force</td>
<td>3,390,048</td>
</tr>
<tr>
<td>Parish Task Force</td>
<td>52,975</td>
</tr>
<tr>
<td>Sub County Task Force</td>
<td>10,945</td>
</tr>
<tr>
<td>District Task Force</td>
<td>1,752</td>
</tr>
<tr>
<td>Total members of NRM Task Force</td>
<td>3,455,720</td>
</tr>
</tbody>
</table>

In each layer of the NRM task force, whether at the village, parish, sub county or village levels; where a leader or a number of leaders holding offices within the NRM structures are no longer members of the structure, either through death or having denounced the NRM; the remaining members of the specific layer of the NRM structure should agree on the replacement of such former leader or leaders.

**Facilitation of the NRM Task Force structures**

Funds to be delivered to the task force at every level is clearly explained in the NRM National Chairperson and Presidential Candidate’s message to the village leaders already referred to above.
The NRM National Chairperson and Presidential Candidate has in the same message guided very clearly how these facilitation should be utilized.

For the avoidance of any doubts, I have issued a circular specifying details of the facilitation to the different levels of the NRM task forces.

To ensure transparency, all facilitation to the task forces countrywide has already been remitted and transferred to the respective NRM Bank accounts in each district; in accordance with the guidance provided by the NRM National Chairperson in his message earlier referred to above.

**Intimidation and violence against NRM fraternity**

There has been an attempt by supporters of some sister parties and criminal elements within the Ugandan society, to intimidate supports and members of the National Resistance Movement. This is not only illegal and unlawful, but it is a recipe for chaos.

The Constitution of the Republic of Uganda 1995 (as amended) under Chapter 4 thereof, guarantees fundamental human rights and other freedoms that all Ugandans should freely enjoy.

However, the same Constitution also imposes a responsibility on Ugandans not to enjoy these rights and freedoms at the expense of the rights and freedoms of other Ugandans.

The constitution specifically provides in Article 29 (1) (a), (d) and (e) as follows:

> “… (1) Every person shall have the right to:
> (a) freedom of speech and expression, which shall include freedom of the press and other media; ………
> (d) freedom to assemble and to demonstrate together with others **peacefully and unarmed** and to petition; and
> (e) freedom of association which shall include the freedom to form and join associations or unions, including trade unions and political and other civic organisations…….”

However, the same Constitution under Article 43 provides for limitations on these fundamental human rights and other freedoms. Article 43(1) specifically provides as follows:

> “… 43 (1) In the enjoyment of the rights and freedoms prescribed in this Chapter, no person shall prejudice the fundamental or other human rights and freedoms of others or the public interest……”.

When read together, these two provisions are very clear:

While the Constitution under Article 29 (1) guarantees all Ugandans the **right** to freely enjoy fundamental human rights and other freedoms; it also imposes a fundamental **duty** or **responsibility** on all Ugandans under Article 43(1) not to enjoy these rights and freedoms at the expense or cost to other Ugandans’ enjoyment of the same fundamental human rights and other freedoms. The Constitution on the one had guarantees a **right**; but at the same time, **imposes** a **duty** and/or **responsibility**.

Viewed in the light of the above two provisions of the Constitution, I condemned in the strongest terms, the recent riots in some parts of the country following the double arrests of two Presidential candidates for flouting the election campaign guidelines.
These rioters, under the pretext of protesting the alleged abuse of the fundamental rights and other freedoms of the said two presidential candidates, interfered with the rights and freedoms of other Ugandans when they took to rioting in which streets were barricaded and tyres lit; property of innocent Ugandans looted, the NRM supporters being indecently assaulted and beaten up; security installations vandalized; Government cars and buildings burnt, e.g. the Magistrates Court in Wobulenzi; and a police station in Kampala, policemen and women on duty being pelted and beaten up; NRM posters and party regalia defaced and damaged, etc – all clearly interrupting other Ugandans peace and quiet of the rest of Ugandans.

I appeal to you as leaders of the mass political organization the National Resistance Movement is, to resist the temptation to resort to violence in the face of all provocation whether in the form of intimidation or actual violence from our competitors.

Please utilize as much as can be practically possible, the presence of police posts and stations to report every such cases of such intimidation and violence.

Additionally, I call upon all of you to cooperate with the police and other security personnel to ensure everybody is safe and secure.

I have already informed you about the NRM Secretariat Call Centre. Please reach out for immediate help in case police assistance and cooperation is not forthcoming.

**Why vote Candidate Yoweri Kaguta Museveni and the National Resistance Movement in the 2021 National Elections?**

**YOWERI KAGUTA MUSEVENI**

---

**a) Ideological Clarity and Orientation**

The strength of the National Resistance Movement is in its ability to identify the challenges that the human race must confront and at the same time, prescribe appropriate solutions to ensure that survival of the human race.

The 4 Ideological principles of the National Resistance Movement are the pillars that has shaped the journey the National Resistance Movement journey over the last 50 or so years. His Excellency the NRM Presidential Candidate has been at the helm of this struggle; that has seen Uganda this far; and that it is only the NRM Candidate with the correct ideological “mindset” and “lens” that will see Uganda and Africa generally, survive the mistakes made by our forefathers; which enabled slave trade and colonialism to take root especially against the african race.
b) Political Stability

For the first time in the history of Uganda, there is peace and security in the country and all the borders are safe and secure.

The Constitution of the Republic of Uganda, guarantees freedom of Speech and freedom of Association and the right to belong to political parties of one’s choice. Coupled with these fundamental rights is the freedom of worship. This legal regime ushered in by the National Resistance Movement has laid the foundation for political stability in the country and the proof of which is that Uganda does not have its citizens living in exile on account of political or religious persecution.

It is the NRM Candidate who is best placed to sustain this conducive environment that will guarantee the future of the country.

c) Security of Person and Property

One of the major positives of the fundamental change ushered in by the National Resistance Movement in 1986 is the total eradication of state inspired violence of the previous regimes by ensuring that the army remained highly disciplined and pro-people. The strict enforcement of discipline coupled with the long term strategy of enhancing professionalism within security forces is the dividends that the Ugandans enjoy their fundamental human rights and other freedoms without any fear of retribution from the State or state security apparatus in the form of deprivation of life and confiscation of their property. It is the NRM Candidate who can guarantee this continuity for posterity.

d) Sustainable Economic prosperity

The economy of Uganda is in the right trajectory for the economic “take-off” stage, inspite of the strategic bottlenecks that must be overcome, and the recent global impact of the COVID-19 pandemic. There are appropriate micro and macro policies in place that has made the economy absorb the global socio-economic financial shocks.

Government has also put in place appropriate infrastructure to sustainably support the path to socio-economic development. These include serious investment in construction of roads, energy, and import substitution through industrialization.

And yet the economic emancipation and liberation of Uganda still has a long way to go, with the major challenge being transforming the subsistence economy into an integrated market economy.

One of the pillars of the NRM is the Socio-economic transformation of society. This will be done through the parish model of transformation, a new concept that needs and experienced and steady hand to harness it to fruition.

That steady hand who Uganda can depend on to achieve this dream, is Candidate Yoweri Kaguta Museveni.

e) Father of the Nation Status

Candidate Yoweri Museveni is the foundation of Honour in Uganda, a mandate bestowed upon him by the Constitution.

He has been in the struggle for the survival of the African race for more than 50 years, and physically participated
in the liberation struggle in Uganda that defeated colonial state apparatus in the country.

He has been a peace maker and uniting factor in the history of Uganda, and has an inelastic capacity to tolerate and accommodate different and divergent views and opinions in the country, whether these be religious, ethnic or cultural in nature.

No President and head of State in Uganda has brought the divergent peoples and political shades of opinions together as Candidate Yoweri Kaguta Museveni has done.

He has signed several peace agreements with former forces fighting his government, and to date, several former foes of the NRM are in government and serving in cabinet.

He has signed several peace agreements with former forces fighting his government, and to date, several former foes of the NRM are in government and serving in cabinet.

f) Diplomat per Excellence.

Candidate Yoweri Kaguta Museveni is the diplomat per excellence in the global politics of today.

Amidst the volatile great lakes region, he has been able to ensure that Uganda has remained an oasis within a sea of instability.

The NRM National Chairperson and Presidential Candidate has stood tall in the face of the global assault on Africa in the economic, political and social fronts, advocating for free and equitable trade, instead of free aid.

Such economic trade arrangements as the “African Growth Opportunity Act” (USA); “Everything but Arms” (Europe) etc, are part of the diplomatic charm offensive exhibited by His Excellency the President, for the benefit of the African race and people.

The Peoples’ Republic of China is the emerging global economic power today. The country is a major stakeholder for bilateral cooperation with African countries in many fields, under the auspices of FOCAC.

Uganda is the only African country that has been accorded a special bilateral status with the People’s Republic of China, owing the diplomatic charm of the Candidate Yoweri Kaguta Museveni.

The Bilateral relation between the Republic of Uganda and the People’s Republic of China enjoys the special status of a “Comprehensive Cooperative Partnership”.

No President and head of State in Uganda has brought the divergent peoples and political shades of opinions together as Candidate Yoweri Kaguta Museveni has done.
Tribute to the NRM Presidential Candidate.

I invite you to join me, and my team at the NRM Secretariat, in thanking the NRM National Chairperson and Presidential Candidate for the following, namely:

1. Officering strategic and ideologically enriched leadership and guidance to the National Resistance Movement organization.

2. Securing ownership of Plot 10 Kyadondo Road, Nakasero, Kampala as the permanent home for the NRM Secretariat.

3. Sustainable mobilization of financial resources which has facilitated among other party activities, the digitalized membership registration, primaries elections, and support to NRM Flag Bearers at all levels, etc.

4. Lobbying from friends and well-wishers, approximately 80,000 “yellow” bicycles for the village and parish mobilization, and approximately 2,200 motorcycles for the sub county mobilization.

5. Being a perfect father-figure and of the Revolution and the fountain of honour.
Finally, you know the responsibility that has been entrusted to all of us to deliver victory in the Presidential, Parliamentary and Local Governments elections.

Securing Your Future!!!

Kasule Lumumba Justine Rt.Hon. SECRETARY GENERAL

The NRM National Chairman also President of the Republic of Uganda H.E Gen. Yoweri Kaguta Museveni, flags off the distribution of the yellow bicycles for all NRM branch chairpersons countrywide
Yoweri Kaguta Museveni
President
Securing Your Future
